

# MA-CE20

## 20" COMMERCIAL EXHAUST FAN

The MA-CE20 delivers powerful ventilation for your commercial space. This compact 24"x24" GI iron fan boasts a direct-drive aluminum blade design, pushing a substantial 3,500 CFM (6,000 m<sup>3</sup>/h) of airflow. Perfect for smaller areas, it features easy positioning with a sturdy standing frame.

# ABOUT US:

For over 30 years, Maxima Air, a Pakistani manufacturer, has been a leader in industrial cooling solutions. We specialize in high-quality air coolers, exhaust fans, and complete ventilation systems including ductwork, supply grills, VCDs, return grills, and more.
