

# MA-CE24

## 24" COMMERCIAL EXHAUST FAN

The MA-DSF20 tackles dairy ventilation with ease. This GI iron fan delivers a powerful 5,500 CFM (9,000 m<sup>3</sup>/h) airflow with its direct-drive stainless steel blades. Ideal for medium-sized spaces, it boasts a compact 28"x28" profile and is proudly made in Pakistan.

# ABOUT US:

For over 30 years, Maxima Air, a Pakistani manufacturer, has been a leader in industrial cooling solutions. We specialize in high-quality air coolers, exhaust fans, and complete ventilation systems including ductwork, supply grills, VCDs, return grills, and more.

## MA-CE24 SPECIFICATIONS:
